

Fresher's Guide for students

Technical University of Munich
TUM Campus Straubing
for Biotechnology and Sustainability

Straubing, August 2025

Welcome at TUM Campus Straubing!

Dear Freshers,

we warmly welcome you at TUM Campus Straubing!

This guide provides plenty of basic information* that you should keep in mind before your arrival and that should help you with settling in in Straubing!

Please click on the relevant links to get more information.

We wish you a good start!

TUM Campus Straubing

Now, let's get started!

International students

On the next few slides we provide helpful information for international students.

TUM – Student Advising and Information Services - central

Dear incoming students,

Congratulations on being admitted to Technical University of Munich.

International students have lots to prepare after receiving admission and before arriving at their new place of study.

Accordingly, we want to inform you about our **Welcome Program: First Steps Info Sessions** and **First Steps –**

International Students share their Experiences

First Steps Team

TUM Center for Study and Teaching

Student Advising and Information Services

firststeps@cst.tum.de

Visit our homepage for more details:

[TUM First Steps - TUM](#)

Visa/Residence Permit

- Depending on your nationality, you might have to apply for a **temporary visa** before arriving in Germany.
- **Exception:** EU-citizens do not require a visa while citizens from all other countries do.
- The following link from the Federal Foreign Office has an overview of nationalities that need to obtain a visa, as well as a guide through the entire procedure.
- German bureaucracy is known for being rather complicated, hence sticking to the guide on the website would be a smart measure to eradicate potential mistakes.
- [Visa regulations](#)

The content of our Fresher's guide has been compiled with meticulous care and to the best of our knowledge. However, we can not assume any liability for the up-to-dateness, completeness or accuracy of any of the information and links provided on this page.

Please keep in mind that we are not involved in the processes described here and can not influence the outcome in anyway.

Visa/Residence Permit

- A **visa** is usually limited to three months (with variation based on countries of issuing). It is highly advised to immediately apply for the **residence permit** (Aufenthaltsgenehmigung) since it can take a lot of time to process and bureaucratic setbacks should always be expected.
- Students residing in Straubing have to apply for residence permit at the Straubing Foreigners' Office. Before visiting the Foreigner's Office, make sure you have prepared all documents required. This is the email address of the Straubing Foreigners' Office:
auslaenderamt@straubing.de
- Students residing outside of Straubing will have to contact the respective 'Landratsamt' in charge.

Please keep in mind that we are not involved in the processes described here and can not influence the outcome in anyway.

Visa Problems

- Sometimes you need additional documents for your visa, such as the duration of your studies. We will gladly prepare such documents. Please just ask.
- If it is foreseeable that you will not be able to enter Germany until the beginning of your studies. Please contact us as soon as possible.
- It is possible to postpone the start of your program by one semester. An admission normally stays valid. ([More Information here](#))

Please keep in mind that we are not involved in the processes described here and can not influence the outcome in anyway.

Life in Straubing: Banking

Before your trip to Straubing, you should start considering **banking options**.

As a student you can generally open a bank account with no required amount of money (kostenloses Girokonto).

However, offers vary based on bank. We would therefore recommend that you look thoroughly at each bank's offering before coming to Straubing, and book an advising appointment at the banks you deem to apply. This will help you to find the bank that is suitable for you, and that you feel comfortable with.

Life in Straubing: Health Insurance

As a student in Germany, you are required to have **health insurance**. You can choose between multiple providers of both public health insurance and private health insurance. If you opt for private health insurance, you can expect a wider variety of medical treatments. However, you need to be aware of the following: The German health care system is one of the best in the world, hence even the public health insurance is of excellent standard. The following is a list of FAQs on the health system in Germany: [Health insurance](#)

Life in Germany: Culture, Food

To give you an idea of what to expect when coming to Germany, we would like to share with you some aspects of German culture, food and climate.

Culture/ Food: Straubing is located in the Federal State of Bavaria that has distinct customs and typical food. In general, the cuisine is meat-heavy and mild. The Bavarian Beer is the most well known product and is served during local festivals (Starkbierfest, Frühlingsfest, Oktoberfest) throughout the year. Get a first impression of typical Bavarian food (and some help for your first visit to a Bavarian restaurant) here: [Restaurants](#)

Life in Germany: Climate

The climate is moderate and has no long periods of cold or hot weather. Straubing is located in the south (inland) of Germany where continental climate prevails. Summer is warm ($\sim 20^{\circ}\text{C}$) with occasional showers/thunderstorms. Winter is mild, but can be harsh with heavy snowfall ($< 0^{\circ}\text{C}$). If you join us for the summer semester, bring light rainwear; if you join us for the winter semester, bring waterproof warm clothes.

Important information

On the next few slides we provide helpful information for everybody.

Life in Straubing: Accommodation

Parallel to the visa application, procedure you should look for **accommodation** in Straubing. The rent in Straubing is not so high compared to other German cities, but raised in the last years. Most students prefer to live in shared apartments or student dorms (just a few places in Straubing).

Here are some helpful links:

<https://www.wg-gesucht.de/>

<https://stwno.de/en/housing>

[Housing in Straubing | TUM Campus Straubing](#)

Life in Straubing: Transportation

Public Transportation is the most popular means of transportation. Since Straubing is a small town, the public transportation is not comparable with bigger cities in Germany. On the other hand, the routes within the city are not very far and can be reached on foot. Alternatively, you can get a bike for cheap (**which we really recommend**).

Taxi Service is a relatively expensive choice of transportation.

If you arrive at Munich Airport, your best option to Straubing is by [train](#).

Life in Straubing: Leisure activities

There is a lot to do and explore in and around Straubing throughout the year. In summer, you can enjoy the typical Bavarian “Beergardens” and in winter you can enjoy a hot German “Glühwein” at one of our traditional winter markets.

The nearby Bavarian Forest invites you to go hiking there or skiing. Also, every year in August the "Gäubodenvolksfest" takes place, which is considered the second largest folk festival in Bavaria after the Oktoberfest.

In addition, Straubing is a sports city. Support our Tigers (ice hockey) or Spiders (American football), who both play in the highest German league in their sport.

For more information and inspiration, check: [Culture & leisure activities](#)

Language Courses

The **TUM Language Center offers German courses** for both newbies to German, as well as more advanced speakers. Throughout your studies, you might also enjoy learning another foreign language, which you will find plenty of in the offers of the TUM Language Center. You could also look up free online courses in order to prepare for your move by learning the basics of German. Additionally, the TUM Language Center offers special courses exclusively for management students. [TUM Language Center](#)

Registration in Straubing

Within two weeks of your arrival in Straubing you need to **register** at the Residence Registration Office (Einwohnermeldeamt). This is a requirement for citizens of every nationality. The following link contains all the information needed to register successfully:

[Registration Straubing](#)

Please keep in mind that we are not involved in the processes described here and can not influence the outcome in anyway.

Financing

We at TUM know firsthand that being a student is never a financially easy situation. There are, however, multiple ways through which you can access financial resources.

- BAföG: Needs to be paid back
- Student Loans: Bound to multiple agreements
- Scholarships: Set certain requirements
- Jobs: Residence permit sets details how much you can work

In terms of jobs, so-called Mini-Jobs (556 € per month) are most popular and common but there are however other options (e.g. working student, part-time). You just need to be aware of the implications of each option.

Please keep in mind that we are not involved in the processes described here and can not influence the outcome in anyway.

Example: Cost calculation Monthly cost overview for studying in Straubing

Accommodation (Rent + additional costs)	350€ - 700€
Food	~ 200€
Clothing	~ 50€
Communication	~ 30€
Study material	~ 60€
Health insurance, medical costs and medication	~ 120€
Leisure, culture, sports	~ 60€
University costs (Semester fee)	~ 13€

Semester & Tution Fees

In winter semester 2024/2025 the semester fee amount for all students in Straubing is 82.00 €.

Further: Tuition fees are charged for international students from third countries who newly enroll in a degree program starting in the winter semester of 2024/25. Please find all information [here](#).

The payment deadline for **enrollment** for the summer semester is **March 15**, for the winter semester **September 15**.

The payment deadline for **re-registration** for the summer semester is **February 15**, for the winter semester **August 15**.

Your transfer will appear in your TUMonline contribution account within approximately **5 business days**. Please do not contact us until your payment has not posted for at least one week.

Your enrollment will not take place until payment has been received. If you have missed the payment deadline, please pay the fee immediately.

Course Registration

To participate in our courses, you must be enrolled as a student. Registering for a course does not obligate you to take the exam; exam registration is a separate process that you must complete individually. For additional help and guidance, check out our tutorials on [YouTube](#).

Exams

Normally, there is a written exam at the end of a semester. In some courses, it may also be that an oral exam, a seminar paper, or a mixture of these must be completed instead.

In addition, if you fail the exam, you have the chance to retake it. The retake exam usually takes place in the next semester or at the end of the semester. Failures will not be recorded on your transcript. Unless otherwise stated, you can repeat an exam several times. It is not possible to retake exams that have already been passed.

The grading system at German universities goes from 1.0 - 5.0. An exam is passed with 4.0 or better. Anyone who does not show up for an exam automatically receives a 5.0.

For example, if you are sick, you can officially withdraw from an exam. You can find the appropriate form [here](#).

TUM Center for Study and Teaching (TUM CST) - Enrollment

The TUM Center for Study and Teaching is the universities' central service unit for all TUM students and responsible e.g. for enrollment, student card and leave of absence.

[Enrollment](#) is the final step you need to take in order to become a student at TUM. Usually the last necessary steps to complete your enrollment are:

- Accept your place in the program
- Payment of semester fee
- Upload of a photo into your TUMonline account
- Submission of health insurance proof

We assume that you have already completed all those steps. If not, please do so as soon as possible! The ultimate deadline → [Dates, Periods and Deadlines - TUM](#)

TUM Center for Study and Teaching (TUM CST) – Student Card

As soon as you are fully enrolled at TUM, you can apply for your **Student Card** in the “my TUM-Card” app in TUMonline if you have a German address.

It can take up to 10 days after receipt of order until you receive the Student Card by post.

If you don't have a German address and for all further information with regard to your Student Card please follow this link: [Student Card](#)

IT Management Systems – Introduction and Systems

IT introduction for Students:

You are new at the TUM and wondering how everything works out. How do I get an e-mail address? How do I register for courses and exams? How does the Wi-Fi work at the campus?

There are so many questions we would like to answer at our presentation on “IT at TUM” for students.

To download video recordings and slides, please check [here](#).

IT Management Systems – Introduction and Systems

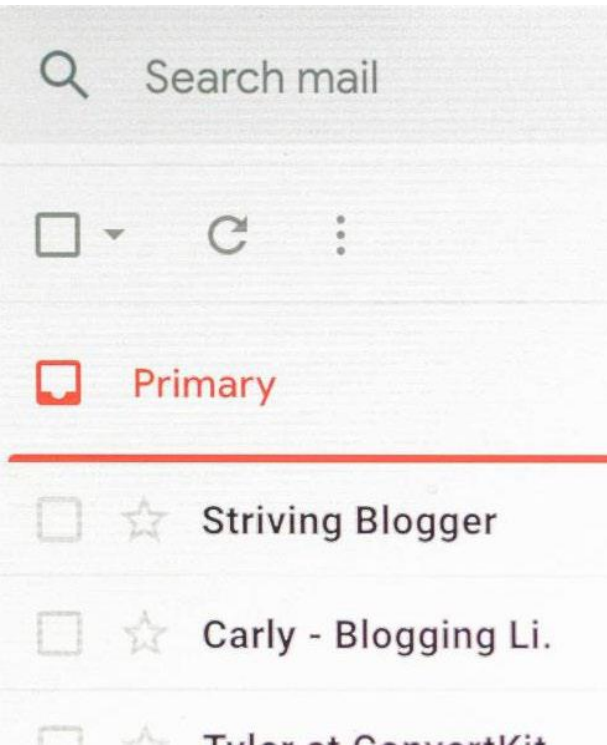

Campus Management System:

Now is a good time to get familiar with the Campus Management System of TUM: **TUMonline**. The platform will be a **cornerstone of your studies at TUM** and will allow you access to various services and information that will be necessary for your studies.

You can look up a wide variety of courses and sign up for them, as well as use it for exam application and access to your transcript of records. The following link contains multiple documents and videos aimed at making the platform accessible and understandable to you:

[TUMonline+manuals](#)

IT Management Systems – Email and Wifi

Microsoft Exchange is **TUM's central email** and groupware system. Students and staff use it to manage their mailbox, personal and shared calendars, addresses and contacts. You will need your exchange username and password to log in. **For tum.de-or mytum.de-addresses** log in here: mail.tum.de

You can change your email address from your TUM-ID to your name (max.mustermann@tum.de) via TUMonline → login → e-mail addresses.

Since TUM staff regularly uses your TUM email address for mailings, make sure you regularly check your inbox, or create a valid forwarding rule.

IT Management Systems – Email and Wifi

Eduroam is an international initiative of the higher educational institutions, to provide a uniform way for academics and students to connect to the internet via WLAN/Wi-Fi, even whilst they are traveling.

At TUM, eduroam is available in all lecture halls, practice rooms and common areas such as libraries and cafeterias, as well as in some office spaces. For several reasons, 100 percent coverage is unfortunately not available.

For more information and an installment guide please refer to: [Eduroam](#)

IT Management Systems – Learning platforms

Moodle is the Learning Management System of TUM. Moodle offers online course rooms for lecturers to provide learning materials as well as many different activities for communication, collaboration and self-learning. Students can use Moodle independent from regional and temporal limits and according to their own needs.

Follow the link to get access: [Moodle](#)

Contact –TUM Campus Straubing Service Point

The TUM Campus Straubing **Service Point** is the first contact point for all students of the TUM Campus Straubing.

It is open for all general questions.

The Service Point (Petersgasse 5, Room 00.002) provides first level support from:

**Monday until Friday between
10am -12noon and 1pm -3pm.**

It can also be reached via **phone**: +49 9421 187-166.
We are looking forward to meeting you there!

Student Counseling – Bioeconomy

Viola Probst

Academic Program Manager

TUM Campus Straubing
Petersgasse 5
94315 Straubing
Room 00.005

Consultation hours:

Office:	Wednesday	1 – 3 p.m.

Frequently Asked Questions

Every year, we receive many questions at the start of the academic year.

Here, we try to answer some of the most common ones.

However, if you have any further questions, feel free to reach out to your Program Manager at any time.

We are happy to help.

How to register for courses?

Please note: You can only register for courses once you are fully enrolled as a student. Course registration is usually possible starting around mid-September.

- You can view your semester plan using the Study Status / Curriculum function in TUMonline.
- This contains all modules and their courses that are recommended in each semester.

Studies and Courses

If your enrollment takes longer for any reason, there's no need to worry.

In the Bachelor's program, courses are not restricted, and in the Master's program, there are plenty of courses available that do not have a limited number of places and are open to all students.

For which courses I had to register?

As a general rule, students should take and complete courses amounting to approximately 30 ECTS credits per semester. Which courses these are depends heavily on the chosen program. We strongly recommend reading the FPSO (study and examination regulations) of your degree program carefully.

When do the exams take place?

At TUM Campus Straubing, the following rule generally applies:

After the lecture period (regardless of whether it is the summer or winter semester), a three-week exam period follows. During these three weeks, all exams for courses held during the lecture period are offered.

This is followed by the lecture-free period.

For every exam from the exam period, a re-take exam is offered. There are two rules: for some exams, the re-take exams take place during the re-take period before the next semester starts. For others, the re-take exam is scheduled in the re-take exam period of the following semester. Always check the module description to see which rule applies to your exams!

Important:

You do not have to take the regular exam in order to participate in the re-take exam. You may choose to take only the re-take exam.

This rule does not apply to seminar papers, oral presentations. In rare cases, there may be exceptions even for written exams.

Lecture Period

Exam period (3 weeks)

Lecture free period

Re-Take Exam period (2 weeks)

Lecture Period

>> <https://www.tum.de/en/studies/application/application-info-portal/dates-periods-and-deadlines>

How to register for exams?

As a rule, exam registration only opens a few weeks after the semester has started, so there's no need to worry about this just yet.

You will receive a separate email with all the relevant information during the semester.

Checklist: Start your studies properly

- Search (affordable) accommodation
- Take out a health insurance policy
- Pay the student fees
- Print out your enrollment documents
- Register your address at the Residence Registration Office
- Open a bank account
- Pick up your student card
- Find out about courses and check your school's website regularly
- Register at the TUM Library
- From a non-EU country? Apply for residence permit
- Discover your new home (guided tours, university sport, student council, etc.)
